

This is a really nice game where you get to be the princess and dress up and play. There are different levels and bosses that you can defeat. It's kick butt because it has awesome graphics and I think it's really fun to play. Suggestions: - More levels! I don't care if its not in the princess game but more clothes and different backgrounds. I would like to see different things like unicorns, dogs, cats etc. -Would be cool if you could unlock more clothes for the characters (especially the princess). How about making her super super hot? I don't think that would be very nice but maybe she could wear something that shows cleavage or whatnot. "By Rice Digital" is a web series broadcast on YTV's website on YouTube. In the series, a girl named Bethany Jones lives in Strange Mushroom Village with her mother. Her mother is a member of the supernatural crime-fighting organization Dark Justice, in a parallel world called Xenosphere, in which she must fight evil beings called Morphs in order to protect Xenosphere from being taken over by evil. After defeating a Morph and saving Xenosphere, Bethany's mother gives her a bracelet that allows her to enter another alternate dimension called Nightmare Land. In Nightmare Land, she finds out that there are other kids who have been chosen by their mothers to be part of Dark Justice and each have their own powers that they use to fight the Morphs. The girl Bethany meets in Nightmare Land is named Mel, whose power is the ability to make things disappear. Unfortunately, Mel gets kidnapped by a Morph and taken to Nightmare Land, so Bethany must now go save her. This is the first two episodes of "Bethany Jones" web series. The series stars Bryn McAuley as Bethany Jones, Jessalyn Wanlim as Mel Jenkinson, David Pressman as Mr. Pressman, Kallan Lutz as Jade Mervine and Elanor Zylberberg-Hiller as Bethosa Diamondine. "Give the People What They Want" is a video game for the Wii console. The game is about Lorna, a girl who lives in this world where all she ever wants are gifts. Her parents are always on her about getting things for free, but Lorna is not happy with that. She loves to get things for her friends and herself, but thinks that just because they are not very expensive does not mean that they can not be nice or useful. After she gets into some trouble with some kids at school, her parents send her to Echo Creek Academy where she learns how to earn money in order to get what she wants. This game was released on January 27, 2012 in Japan only.
